## **WRITTEN GUARANTEE**

• **100% Accurate** - Laboratories are accredited by the American Association of Blood Banks, in strict accordance with the standards set forth by the Parentage Committee of AABB.

- ◆ DNA Testing Center achieves DNA test results that are 100% accurate. Accuracy and paternity or maternity index should not be confused. The accuracy of a DNA test is determined by the lab(s) capability to follow the AABB requirements and release results that are 100% correct.
- ◆ All of the testing is performed by an accredited laboratory in accordance with the standards set forth by the Parentage Committee of the American Association of Blood Banks ([AABB](#)). The AABB inspects and accredits paternity testing laboratories based on the standards adopted and agreed upon by the Parentage Committee.
- ◆ DNA testing is the most accurate and reliable means of identity verification available for parentage testing.
- ◆ There is no difference in the testing accuracy between a DNA blood test and our home (self collection) DNA test kits.
- ◆ A paternity or maternity test can prove with 100% exclusion that an individual **IS NOT** the biological parent of a child.
- ◆ Since there are over 30,000 genes in human DNA, no test can prove with a 100% inclusion that an individual **IS** the biological parent of a child. DNA testing can, however, provide a 99.9% probability of paternity/maternity (depending upon the type of samples used). DNA testing typically proves paternity/maternity relationships with at least 99.9% certainty, well in excess of the 99% requirement of most U.S. courts.

• **100% Value** -We offer a self-collection ("Home Kit") versus a "Formal Legal Test" guarantee. Should you need a legal test after completing a home kit, 100% of the kit price applies (excluding shipping) toward a formal court admissible test. No other company has ever made this offer, which is based upon the following requirements:

- ◆ The time period for this offer never expires.
- ◆ The formal court admissible test must be purchased from us. We also offer a low price guarantee on our court admissible tests.
- ◆ Our formal legal tests are guaranteed to be admissible in any United States Court, Social Security or birth certificate office, and any US Consulate office for immigration.
- ◆ Testing will only apply to the parties tested in the originally purchased self collection "Home Test" DNA kit.
- ◆ Special sample extraction costs (amniotic fluid, blood stains, chewed gum, cigarette butts, etc.) are not applied to the cost of the court admissible test.
- ◆ Cost of shipping and handling of the home DNA test kit is not applied to the purchase of a court admissible DNA test, and the maximum that can be applied to any court admissible test is \$280.00. No additional stat testing fees of a self-collection kit can be applied to the cost of the court admissible test.

## DNA TESTING CENTRE, INC. - WRITTEN GUARANTEE

- **100% Conclusive Guarantee** - You will receive conclusive results or your money back.
  - ◆ Due to the power of the test and laboratory capability, we offer a money back guarantee if the alleged father's race is Asian, Black, Caucasian, Hispanic, or Japanese and the paternity index is less than the following:
    - **Paternity Trio (mother, child, and an alleged father) or Maternity Trio**
      - We guarantee that you will receive a 99.9% or greater probability
    - **Motherless paternity test (alleged father and child)**  
**Fatherless maternity test (alleged mother and child)**
      - We guarantee that you will receive a 99.0% or greater probability
  - ◆ Although unlikely, the following conditions could cause the probability of paternity to be less than the guarantee listed above. The guarantee does not apply to the following situations:
    - Mixed or unlisted race (laboratory must then use standard paternity tables instead of specific race tables).
    - The actual father is related to the alleged father. If the potential fathers of a child are related (i.e. brother, uncle, father/son), this information must be disclosed at the time of ordering. All related fathers must be tested simultaneously to eliminate the possibility of a false positive due to similar DNA.
- **100% Safe** - Swab the inside of your cheek to obtain the buccal cells. No needles!
- **100% Easy** - Follow the instructions and return the samples for testing in the provided prepaid mailer (U.S. orders only).
- **100% Complete** - There are never any hidden charges.
- **100% Confidential** – Only involved parties receive information pertaining to the test and results, such as the tested adults and purchaser of the test. The test can be ordered with or without the mother. Every credit card or check by phone purchase appears as “D-FWMall.com” rather than “DNA Testing Centre” and “D-FWMall.com” also appears on the return address for all shipped packages to further ensure your privacy.
- **100% Fast** - Orders placed before 4:00 pm CST are shipped the same business day. Most paternity/maternity testing is completed within 4-7 business days; stat testing is also available at an extra charge.
- **100% Convenient** -We can ship worldwide to any country, and kits can be split between multiple locations. Overnight and Saturday deliveries are available to most United States locations.
- **All With A Low Price Guarantee** - We will beat any advertised Internet or published price on any similar test performed in the United States. A similar test is classified as a PCR system test by an AABB accredited lab. This price guarantee is only available at the time of purchase.
